

PROTECTING  
what is *most* important.

Cleaner. Brighter. Safer.

An Innovative UV and Chemistry  
**Linen Disinfection  
Program**

A GLOBAL LEADER IN  
UV TECHNOLOGY

OMNI Solutions is an EPA-registered, global leader in UV technology, that is revolutionizing the UV disinfection and commercial laundry industries with an array of innovative, energy-efficient products designed to help maintain the highest standards of clean and disinfection.

## OMNI Solutions is **PROTECTING YOUR**

### LINEN

The patented LUX™ UV Laundry System delivers cleaner, brighter, softer linen in every wash and is proven to kill the virus that causes COVID-19.

### SURFACE

From entire rooms to the inside of transport vehicles, the AURA™ mobile disinfection unit delivers protection without the use of harsh chemicals.

### AIR

Keep those around you breathing easier with our SPIRO™ Air Disinfection System – perfect for classrooms, offices, lobbies, and more.

# WORLD

# ADVANCED OXIDATION UV LAUNDRY SYSTEM

## PROTECTING YOUR GUESTS

Innovative disinfection solutions that help protect your guests and patients.

## PROTECTING YOUR BRAND

OMNI's patented laundry cleaning program ensures the highest level of results and guest satisfaction.

## PROTECTING YOUR BOTTOM LINE

Laundry formulas that deliver exceptional results while achieving the lowest operational cost.

## PROTECTING YOUR ENVIRONMENT

Responsible solutions through OMNI's sustainable program save water, energy, and carbon.

# PROTECTING YOUR GUESTS

With an ever-growing focus on health and safety, guests today demand clean, disinfected linen and rooms. Whether they are staying a few nights in a hotel while on vacation, or moving into a long-term care facility, the expectation for cleanliness is of the utmost importance.

The patented LUX™ UV Laundry System delivers the highest level of cleanliness and disinfection in the industry.

“Of those planning to travel over the next 12 months, over 80% intend to look at health and safety protocols before choosing a hotel.”

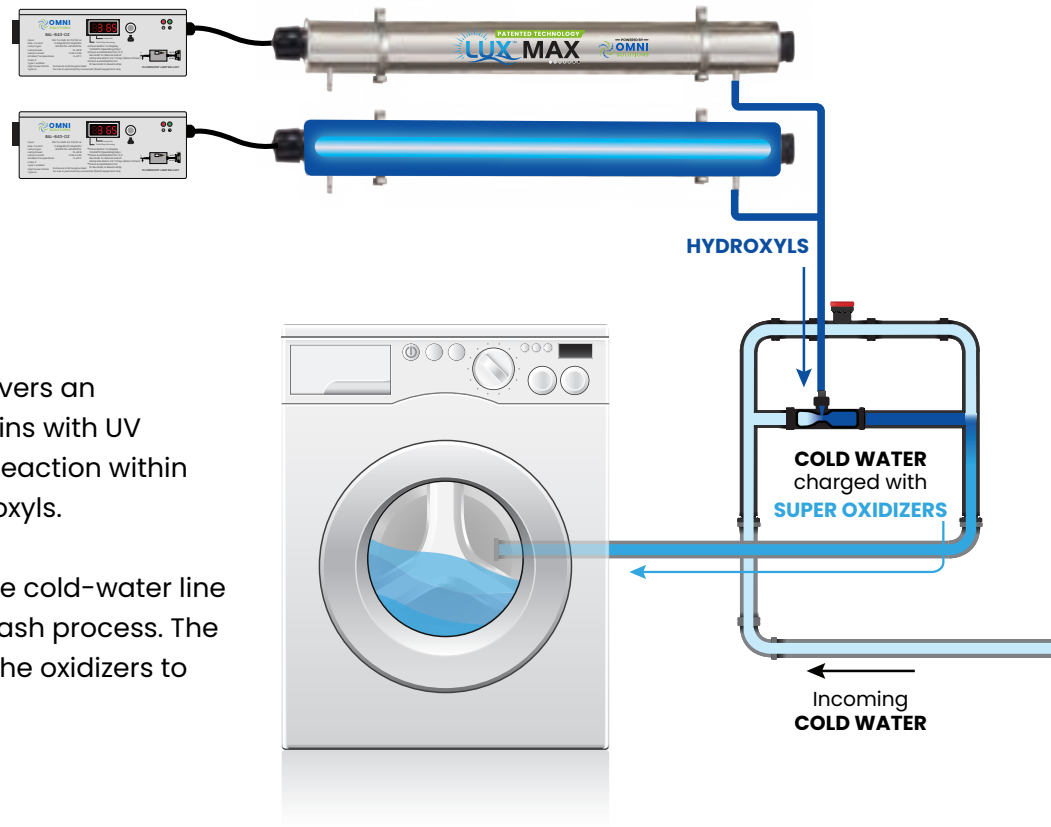

\*Hospitality Net, the most trusted source for hospitality industry news, and Knowingli Market Research revealed the results of an exclusive Housekeeping and Hygiene survey, sponsored by Knowcross.

## Advanced Oxidation PROCESS

OMNI's patented injection process delivers an advanced oxidation reaction that begins with UV light. The UV light creates a chemical reaction within the LUX generator that produces hydroxyls.

Those hydroxyls are introduced into the cold-water line and dispensed optimally during the wash process. The closed-loop process enables 100% of the oxidizers to make it safely into the wash wheel.

## Advanced Oxidation RESULTS

OMNI's advanced oxidation reaction occurs better at lower temperatures. This reaction opens up linen fibers, enabling the LUX Plus detergents to remove soil more effectively. Combined, the LUX System delivers unsurpassed disinfection, destaining, and cleaning for improved guest and patient satisfaction.

The LUX UV Laundry System produces UV light, creating a chemical reaction that effectively eliminates microorganisms from replicating. In a traditional laundry, with water and chemical alone, microorganisms can survive, adapt, and infect. This advanced oxidation reaction is effective in killing the following:

**SARS-CoV-2, the virus that causes COVID-19 | MRSA**  
**C. diff | Human Coronavirus OC43 | E. coli**

Test results from an independent lab.

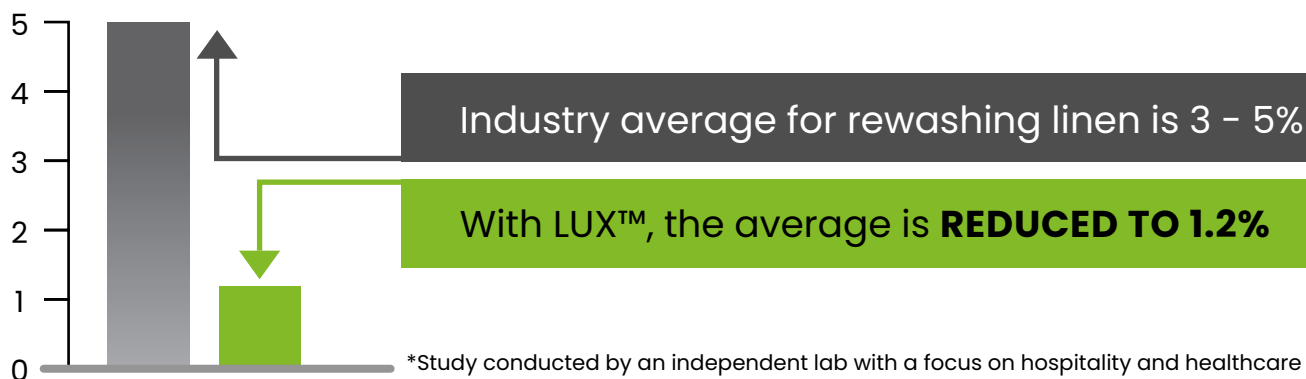

# PROTECTING YOUR BRAND

*Formulated for LUX UV Systems*

Specifically designed and formulated for LUX UV Systems to deliver best-in-class cleaning and disinfection. The LUX Plus Program ensures that linen always comes out brighter, cleaner, and safer. In combination with the LUX UV System, these products deliver increased stain removal, softer linen, and exceptional results for both guests and patients alike at the lowest operational costs to your business.

- ✓ **Best Results at Lowest Operational Cost**  
Superior chemistry designed to work with lower water temperatures delivers superior results at the lowest cost
- ✓ **Clean, White, and Bright Every Time**  
Best-in-class chemistry for all water conditions  
Customize product line for specific applications  
Better stain removal for lower rewash
- ✓ **Service You Can Count On**  
Dependable service and reliable emergency service that keeps your operation on track
- ✓ **Precision Dispensing**  
Patented closed-loop system ensures safe and consistent dispensing every time
- ✓ **Earth-Friendly**  
Ultra-concentrated products, in smaller container sizes, reduce carbon footprint and impact on the environment

## LARGE LAUNDRY

The LUX Plus **Large Laundry Program** is specifically formulated and packaged for larger institutional laundries. The LUX Plus line contains best-in-class formulations with a diverse product mix that performs well in all soil conditions.

In combination with the LUX™ UV System, these products deliver increased stain removal, softer linen, and exceptional results for both guests and patients alike at the lowest operational costs to your business.

- ✓ Premium formulations that deliver one-wash results in all water conditions
- ✓ Superior stain removal for lower rewash
- ✓ Effectively works with lower water temperatures
- ✓ Ultra-concentrated to provide the lowest use cost

15-Gallon Drums

A background image showing a person's hands washing laundry in a sink. The water is soapy and white. The person is wearing a light-colored shirt. The image is slightly blurred, focusing on the action of washing.

## **BOOST | LAUNDRY BREAK**

---

Provides great grease-fighting ability while handling the toughest water conditions.

*Available in:* 2 x 1½ gallons    SKU# 101106223

15-gallon drum    SKU# 101107308

## **ENHANCE | LAUNDRY DETERGENT**

---

Provides excellent emulsification of soils and prevents redeposition onto fabric.

Designed for use in all water and soil conditions.

*Available in:* 2 x 1½ gallons    SKU# 101106224

15-gallon drum    SKU# 101107307

## **BRITE | LAUNDRY DESTAINER**

---

Highest quality concentration of liquid chlorinated destainer produced to stringent manufacturing controls, ensuring the highest available chlorine content and maximum shelf life.

*Available in:* 2 x 1½ gallons    SKU# 101106228

5-gallon pail    SKU# 101106229

15-gallon drum    SKU# 101107310

## **BRILLIANCE | LAUNDRY OXYGEN BLEACH**

---

Provides excellent cleaning ability, yet is safe to use on all types of colored and synthetic fabrics.

*Available in:* 2 x 1½ gallons    SKU# 101106227

15-gallon drum    SKU# 101107302

## **BALANCE | LAUNDRY SOUR**

---

Provides effective pH control, eliminates iron staining and prevents yellowing on all types of fabric.

*Available in:* 2 x 1½ gallons    SKU# 101106225

15-gallon drum    SKU# 101107309

## **SO SOFT | LAUNDRY SOFTENER**

---

Pleasant citrus scent, leaving fabrics smelling great, as well as soft and static-free.

*Available in:* 2 x 1½ gallons    SKU# 101106226

15-gallon drum    SKU# 101107304

## **NEUTRA-SOFT | LAUNDRY SOUR & SOFTENER**

---

Unique formulation inhibits iron deposits, reducing the need for a separate sour and softener. Formulated with optical brighteners to leave towels, sheets, and fabrics looking bright as new.

*Available in:* 2 x 1½ gallons    SKU# 101106551

15-gallon drum    SKU# 101107303

## **STAIN AWAY | LAUNDRY PRESPOTTER**

---

Applied directly to the stain or spot, this product works immediately to penetrate the fibers, solubilize soils, and prevent redeposition.

*Available in:* 12 x 1 quart    SKU# 101106399

HOUSEKEEPING

Clean with  
*confidence.*

The **LUX Plus Cleaning & Disinfection Program** provides a comprehensive line of housekeeping products with superior formulations that protect your guests, patients, and brand with the highest levels of clean and disinfection.

- ✓ Complete line of cleaning and disinfection products
- ✓ Formulated to clean in the toughest soil conditions
- ✓ Broad spectrum disinfection products
- ✓ Ultra-concentrated to provide the lowest use cost
- ✓ Training and instructional tools available

#### SHINE | AMMONIATED GLASS CLEANER

No-streak formula with excellent cleaning power.

Available in: 1 x 1½ gallons SKU# 101106231

#### CITRUS SHINE | NEUTRAL CLEANER

Cleans and degreases most washable surfaces. Neutral pH, rinse-free cleaner won't harm finished floors.

Available in: 1 x 1½ gallons SKU# 101107306

#### TOUGH SHINE | ALL PURPOSE CLEANER & DEGREASER

Cuts through oils and tough grease. Formulated for less scrubbing to work fast and reduce labor time.

Available in: 1 x 1½ gallons SKU# 101107305

#### TUB & TILE | DAILY RESTROOM CLEANER

Controls hard water scale and soap scum while removing stubborn lime scale.

Available in: 1 x 1½ gallons SKU# 101106235

#### NON-ACID RESTROOM CLEANER DISINFECTANT

Eliminates 99.9% of Staphylococcus aureus and Klebsiella pneumoniae in 60 seconds from washable hard, nonporous surfaces.

Available in: 1 x 1½ gallons SKU# 100878527

#### SHURGUARD HP | MULTI-SURFACE DISINFECTANT CLEANER

Cleans, disinfects and reduces odor-causing bacteria, leaving surfaces smelling clean and fresh.

Available in: 1 x 1½ gallons SKU# 101104419

READY-TO-USE available in:

6 x 1 quart SKU# 101104420

4 x 1 gallon SKU# 101104471

#### AVERT® RTU | SPORICIDAL DISINFECTANT CLEANER

Ready-to-use, cleans, disinfects, and deodorizes hard, nonporous surfaces with no rinsing required.

Available in: 12 x 1 quart SKU# 100842725

#### LINEN FRESH | ODOR NEUTRALIZER

Air freshener and malodor counteractive eliminates odors at their source.

Available in: 1 x 1½ gallons SKU# 101106232

Also available in OCEAN FRESH scent:

1 x 1½ gallons SKU# 101106233

# PROTECTING YOUR

# BOTTOM LINE

OMNI's patented LUX System can reduce your water consumption BY UP TO 20% and energy usage BY UP TO 55% – in most cases, allowing **SAVINGS TO EXCEED THE COST OF CHEMISTRY!**

## IMPACT OF WATER IN YOUR WASH CYCLES

Historically, wash formulas include massive amounts of water. Most ignore the impact of this cost while focusing more on the cost of the chemicals.

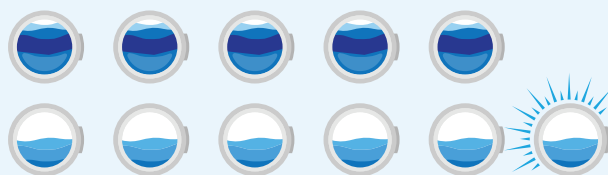

### FACT

In a typical on-premise laundry setting, the LUX System can reduce water consumption by up to 20%.

**SAVING A MINIMUM OF \$2,800 ANNUALLY.**

## Traditional Wash Cycles vs. LUX™ UV System Wash Cycles

*Using the Same Amount of Water*

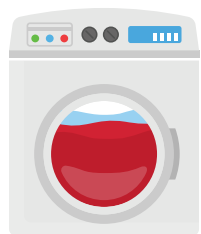

**300K** GALLONS of WATER  
SAVED EACH YEAR

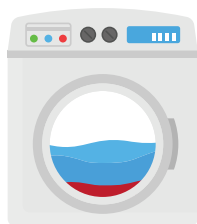

**1,460 LOADS SAVED** .....

## IMPACT ON ENERGY IN YOUR WASH CYCLES

Water temperature is often used as a cleaning agent in place of poor chemistry. Increased water temperature is an invisible cost to the consumer.

**TRADITIONAL**  
WASH CYCLE

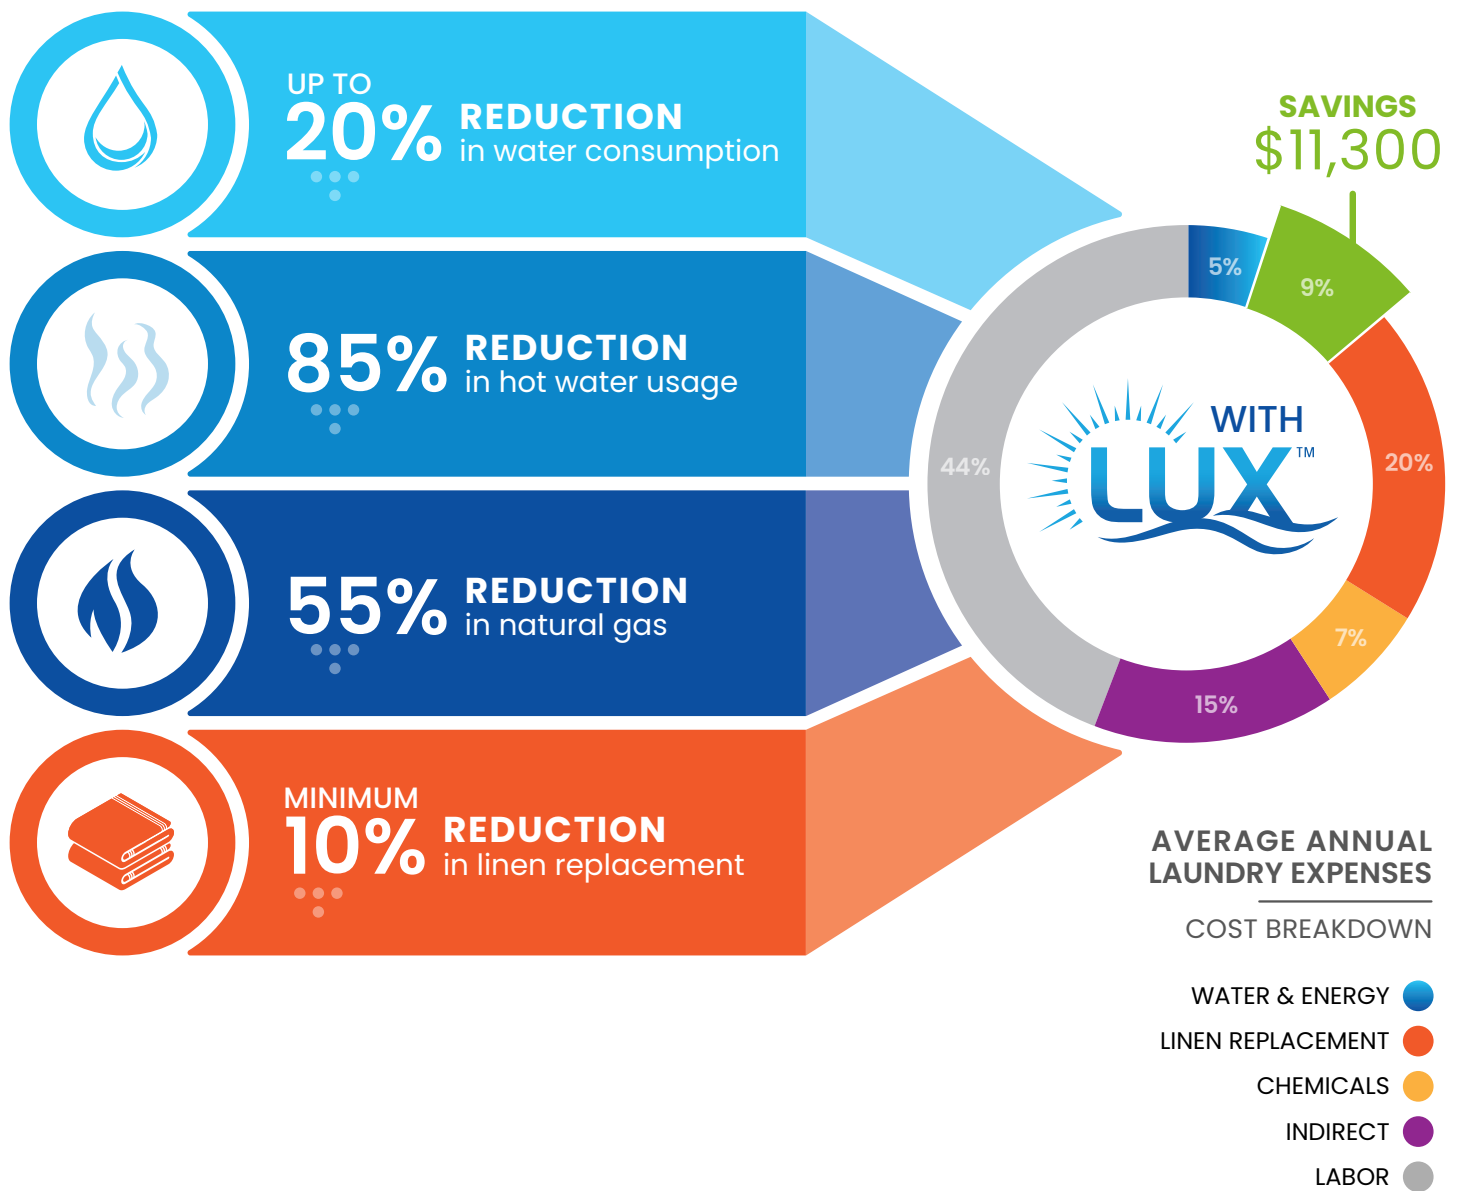

**LUX UV SYSTEM**  
WASH CYCLE

### FACT

In a typical on-premise laundry setting, the LUX System can deliver an 85% reduction in hot water usage, reducing your energy consumption by up to 55%.

**SAVING A MINIMUM OF \$5,800 ANNUALLY.**

## OVERALL IMPACT ON YOUR COSTS

\*National average is \$0.02 to buy, heat, and dispose 1 gallon of water.

\*\*Theoretical scenarios based on 2 washers, each running 10 cycles per day, and saving 40 gallons of water per cycle.

## How Does UVC Light Work?

Ultraviolet germicidal irradiation (UGI) is a disinfection method that uses short-wavelength ultraviolet (C or UVC) light that helps to inactivate microorganisms, leaving them unable to perform vital cellular functions. UV light requires the use of germicidal wavelengths of 185–254 nanometers (nm).

### AURA™

#### Mobile Ultraviolet Surface Disinfection System

- ✓ Provides a complete and easy disinfection method
- ✓ Ensures that all surfaces are affected
- ✓ Saves time while delivering a better disinfection process
- ✓ Easy and safe to use with shatterproof UV lamps
- ✓ Environmentally-responsible technology
- ✓ Delivers consistent, repeatable performance in a safe manner

### SPIRO™

#### Ultraviolet Light Air Disinfection System

- ✓ Provides effective and easy air sanitization
- ✓ Solid construction allows for convenient installation
- ✓ High CFM fan recirculates sanitized air quickly
- ✓ Manufacturer test results show a greater than 99.9% reduction in airborne bacteria and viruses\*

\*The following airborne bacteria and viruses were tested: E. coli, Influenza A virus (H1N1), Pseudomonas aeruginosa, and Salmonella enterica with a 30-minute exposure time in a 30 cubic meter test chamber.

# PROTECTING YOUR

# WATER CONSUMPTION

OMNI Solutions' **OMNIV**alve™ is specifically designed to...

- ✓ **REDUCE** your water bill
- ✓ **SAVE** water
- ✓ **PROTECT** the integrity of your plumbing system

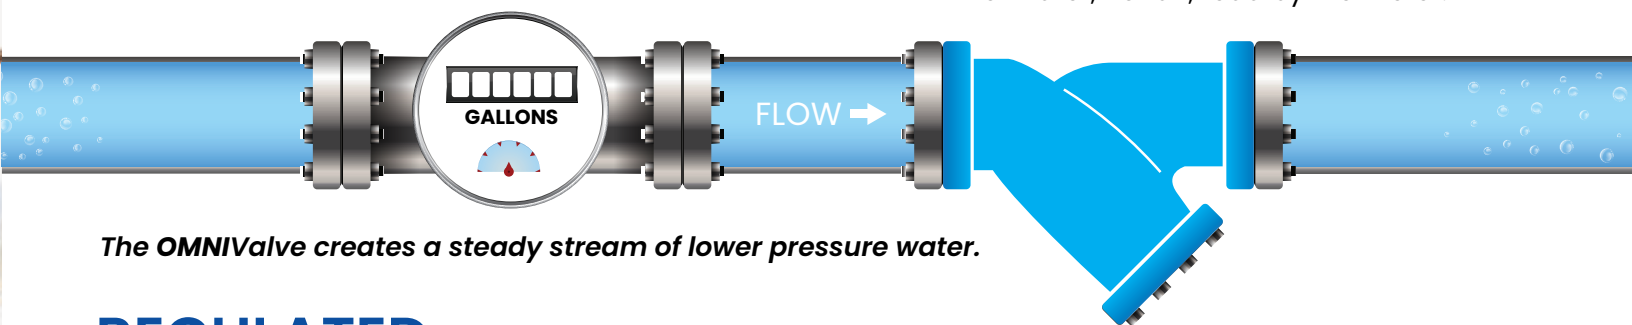

Water meters have changed little since their earliest use and have a major fault in their design. Air in your water lines is read as water in your meter. The turbulence of incoming water creates air bubbles that increase the overall VOLUME that passes through and is read by the meter.

**OMNIV**ALVE  
Available in ¾" to 12"

Placed **after** the meter, **OMNIV**alve creates a compression zone back through the meter, allowing for a true measurement of water, not air, read by the meter.

*The OMNIValve creates a steady stream of lower pressure water.*

**REGULATED**  
WATER PRESSURE  
**CAN REDUCE**

- ✓ Water consumption
- ✓ Plumbing maintenance costs
- ✓ Stress on your pipes
- ✓ Risk of leaks

UP TO **35%** SAVINGS ON YOUR WATER BILL

**MINIMUM 5% SAVINGS GUARANTEED**

**SAVES \$\$\$**  
GALLONS OF  
JUST WATER

# PROTECTING YOUR ENVIRONMENT

**RESPONSIBLE SOLUTIONS** that protect what is essential to you through sustainable UV technology.

## **LOWER TEMPERATURES REDUCED ENERGY USAGE**

Lower water temperatures and shorter formulas reduce energy usage.

## **SHORTER FORMULAS LESS CLEAN WATER NEEDED**

Shorter formulas conserve nature's most vital resource and reduce our customers' cost.

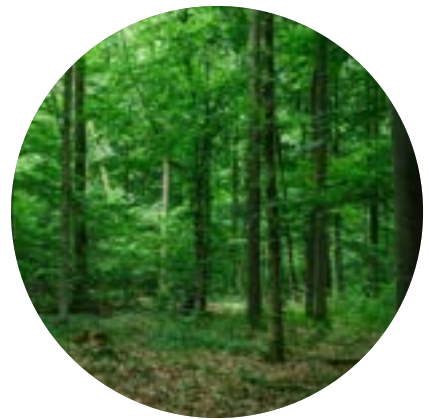

## **ULTRA-CONCENTRATED SMALLER CARBON FOOTPRINT**

Concentrated products reduce the need to ship water and additional weight.

## **SMALLER PACKAGING LESS CORRUGATED, LESS PLASTIC, LESS WASTE**

Smaller packaging ensures that less resources are needed while preserving our landfills.

## **CLEAN WITH LESS PRODUCT PROTECTING OUR WATER SUPPLIES**

Chemistry coupled with UV enables you to clean with less chemical, saving our waterways.

A GLOBAL LEADER IN  
UV TECHNOLOGY

**PROTECTING YOUR WORLD.**
